## **ATTENDANCE:**

Students are expected in class every day the class is scheduled to meet. If a student has not arrived within fifteen (15) minutes of the assigned starting time nor notified the instructor **IN ADVANCE** of the absence, the instructor or staff member shall notify the home school of the student's absence, either by telephone, fax, or e-mail. The home school shall follow their regular procedure for a student's absence.

Absent students shall be required to provide the instructor an admit slip from the home school **THE FIRST DAY** returning to the Career & Technical Education class after they have attended regular class at the home school to be eligible to make up missed work. The admit slip shall verify the student's absence was excused or unexcused. If the student does not bring an admit slip to the instructor within three (3) days upon returning, it will be assumed the absence was unexcused and shall be reflected in the student's grade.

The student shall be responsible to secure any work or assignments missed after an absence. If the student does not, the instructor shall mark the grade as a '0' for the work or assignment.

After five (5) absences the student's absences shall be reviewed by the staff. The Instructor shall send a letter (approved by the Career & Technical Education Director) to the student's home school listing the days missed and every five (5) absences thereafter. Note Excessive Absence Policy

The intent of the attendance policy is to draw attention to the attendance habits of the student and to stress the importance of being at the Career & Technical Education class each day. The policy does not supersede a home school's attendance policy or statement.

## **TARDINESS:**

Every possible effort should be made by the student to arrive at class on time. Students are to report to class even if they are tardy. The judgment as to whether a penalty shall be assigned shall be at the discretion of the instructor.

The instructor may require a student to make up tardiness by staying after dismissal time or by requiring earlier arrival time. A notice of the day and time of make up shall be given to the student and home school at least one (1) day in advance and shall not interfere with the student's home school classes. All tardiness shall be reported to the home school with the daily attendance report.

This notice shall be in advance of the date for early release. If the instructor does not receive an official notice, the student shall not be released early.

A student may also be released early due to a health emergency. If this occurs, the instructor or staff member shall notify the home school and the parent/guardian of the early release and reason.

If the student must be released early for an appointment, a written notice from the parent/guardian is required in advance. Students are encouraged to schedule appointments outside of school time. If the student drives other students to class, the other students must make alternate travel arrangements.

If a pep session or convocation is held at a school hosting a Career & Technical Education program, only the students from the host school shall be released to attend, if requested by the home school; other students shall remain in class.

## **CALENDAR:**

The Career & Technical Education program calendar and the home school calendar may differ at selected times. Students will be expected in the Career & Technical Education class every day it is scheduled to meet. Students are mailed a copy of the Career & Technical Education program and their home school calendar with program information prior to the start of classes. Students should become familiar with both calendars to avoid attendance problems.

## **EXCESSIVE ABSENCE PROCEDURE**

As Twin Rivers Career & Technical Education Area tries to provide quality career experiences and education for the area students, it is felt that attendance is a major component of such instruction. To reinforce the importance of daily attendance the following procedure has been implemented.

Each student' situation will be reviewed on its own individual merits.

- A. Once a student misses five (5) days of class (each class is considered 3 hours), a letter/e-mail will be sent to the parents/guardian from the instructor with copies sent to the sending school counselor, principal, and attendance officer notifying them of the days missed regardless of excused or unexcused status. The days missed do not include school related functions, such as ISTEP, GQE, or school related field trips.
- B. Upon eight (8) days of absences within the semester, correspondence will be sent to the parents/guardian from the instructor with copies to the school representatives that the student is on probation for the remainder of the program year. A parent conference may be scheduled if requested by any of the parties to discuss the situation.
- C. Upon twelve (12) days of absences within one semester or fifteen (15) days within one year, the student may be withdrawn from the program and reassigned to the home school. The student may request a review of the decision. The Career & Technical Director, Instructor, home school principal and counselor will review the following questions prior to a final decision being made:
  - 1) Are the absences excused or unexcused?
  - 2) Has Information been provided to support reason for absences?
  - 3) Has the student made up missed work?
  - 4) Does the student participate in class?
  - 5) Does the student do the work assigned and in a timely manner?
  - 6) Does the student have an interest to continue in the program?

If the student opts not to attend because of weather, the student will be noted as not in attendance and the absence will not be reflected in a negative manner.
