

## COLLISION REPAIR AND REFINISHING PROGRAM

Vincennes University's two-year Collision Repair and Refinishing Program is designed to advance the technical skills of new service technicians. The program allows graduates to excel in today's high-tech, fast paced workforce. ASE certification examinations are offered twice annually.

### VU OFFERS A CHOICE OF A COLLISION REPAIR & REFINISHING DEGREE

Successful completion of an **Associate of Applied Science (AAS)** degree allows you to enter the workforce immediately.

Through intensive classroom and hands-on lab experiences, you will develop skills based on both technical and general education. Classroom studies will focus on problem solving, communication, and repair. In the lab you'll have the opportunity to roll up your sleeves and test your knowledge on a variety of automobiles and light trucks. A tool set is required for this major. A student discount is available on tools.

### WE ARE COMMITTED TO YOUR SUCCESS

Top companies offer the highest pay to applicants with a college degree.

At Vincennes University you'll receive training from faculty who are fully ASE/I-CAR certified and are committed to helping you prepare for your future as a skilled collision repair technician.

faculty who are fully ASE/I-CAR certified and are committed to helping you prepare for your future as a skilled collision repair technician.

## Collision Repair and Refinishing

Collision  
Repair & Refinishing

# VINCENNES UNIVERSITY TWIN RIVERS COLLISION REPAIR

Through a partnership between the Twin Rivers Program and Vincennes University, eligible high school seniors may enroll in college level Collision Repair and Refinishing classes at VU.

Students will travel to VU daily to take both lecture and lab courses. Mondays, Wednesdays, and Fridays will be lab time from 8:00AM until 11:50AM (Vincennes time). Tuesdays and Thursdays lecture will meet from 9:30AM until 10:50AM (Vincennes time) (18 Credit Hours if students take this for two semesters).

Students will be responsible to pay a lab fee for each of the two semesters (\$410 each semester) they attend VU. VU will provide a text book, safety glasses, respirator, and a set of tools for you to borrow.

You will be taking BODY 100 (Non Structural Repairs), BODY 100L (Non Structural Lab), BODY 150 (Painting and Refinishing), and BODY 150L (Painting and Refinishing Lab). Students will learn the following skills: welding, cutting, grinding, fabricating, dent repair, body filler application, priming, wet-sanding, buffing, masking, panel removal and replacement, plastic repair, smc repair, single stage and two stage painting application, and other related skills. Check us out on the web at:

[www.vinu.edu/technology](http://www.vinu.edu/technology) (click on Collision Repair Link) or on Facebook.
