VINCENNES UNIVERSITY
EARLY CHILDHOOD
(PRESCHOOL / DAYCARE/CHILD DEVELOPMENT)

PROGRAM DESCRIPTION

The Child Development Program engages students in the study of childhood developmental domains from conception to adolescence. Students gain an understanding of the physical, emotional, social, and cognitive development of children as well as the various factors that impact development.

If you have a passion for working with young children, this major could be the perfect fit for you!

OCCUPATIONS UPON COMPLETION OF PROGRAM:

Depending upon educational attainment, college graduates are prepared to work in a variety of early childhood settings. Students may go to work in early childhood centers, daycares, or preschools. Some may choose to own or operate their own home-based child care business as well. This program also lends itself to careers in ABA therapy, play therapy, and other positions focused on behavioral change.

DOE CODE:

7160 - Principles of Early Childhood Education
7158 - Early Childhood Education Curriculum
7159 - Early Childhood Education Guidance
